Paperex 2023 inaugural function

Paperex 2023 Technology Day

Paperex'2025 Conference and Exhibition will offer the latest state-of-the-art technologies and practices for pulp, paper, printing, packaging, tissue, publishing, and other allied industries. Paperex is an ideal platform for sourcing technologically and commercially viable technologies for redefining the future of the paper and paper packaging, tissue and allied industries globally.

With an aim to redefine and restructure the Indian paper industry to make the industry more competitively and economically viable, the organisers of Paperex are unfolding a display of highly sophisticated technologies, technical presentations, and presentations on Global Scenario of the Paper and packaging Industry at the doorstep of the Indian paper industry. Indian paper industry has to redefine to address all emerging challenges and growth prospects of the Industry by the year 2040 to be competent globally.

Indian Paper Industry Scenario

The paper industry in India registered a growth of about 5.5–6 percent in the years 2024–25, which is lower than the expected growth of 7% due to various reasons confronted by the Indian paper industry. However, by the years 2025–26 onward, it is projected that the Indian paper industry will come back to its earlier projected growth track of 7% , and the demand for paper in the country will grow to 50 million metric tonnes by the year 2035 from the present consumption of 24 million metric tonnes.

Major changes are taking place in various segments, like writing and printing paper, paperboard, newsprint, tissues, packaging-grade papers, etc. Innovations, technologies and changing management concept will have a vital role in this process. Today India is an excellent and vibrant market for paper and paper products due to the high spending of the middle class and government initiatives on the social development front, which also make the industry more vibrant.

In nutshell, the future of India's pulp and paper industry is bright, with numerous opportunities for growth and innovation from expanding product lines to adopting advanced technologies. Therefore, Entrepreneurs in pulp, paper, packaging, tissue and allied industries have several avenues to explore.

Paperex Conference

As an internationally acclaimed series of exhibitions and conferences, the Paperex 2025 conference is designed to meet and highlight the technological advancements taking place in pulp, paper, boards, tissues, packaging, and allied industries across the world. This year's conference is also ensuring to make the industry globally competitive by adopting innovations and world-class technologies and practices for achieving sustained growth and development.

Conference theme:

“Sustainable Growth of Paper, Paper Packaging, and Allied Industries in the Changing Global Scenario”

The theme of the Paperex'2025 conference is selected to meet and address all the aspirations of the industry, particularly the fast changing technological and economic scenario of the world, and also to meet the projected growth demand of 50 million metric tonnes of paper, board, various grades of packaging paper, tissue, etc. by the year 2035. The conference will be held from 03 - 05 December 2025 at **INDIA INTERNATIONAL CONVENTION AND EXPO CENTRE, YESHOBHOOMI, DWARKA, NEW DELHI.**

Conference Delegates

Paperex delegates are highly focused well-known technological aspirants, marketing professionals, consultants, scientists from R & D institutes, well-known academicians, mill managers, CEOs, directors, etc. from Paper Mill and allied industries. This year's Paperex 2025 Conference expects the participation of more than 500 delegates from India and abroad in various sessions of the International Conferences.

Call for Paper for Presentations

Paperex'2025 Secretariat invites technical papers for presentation during the three-day conference proposed to be held from December 3–5, 2025 from well-known industry people who are engaged in the field of pulp, paper, packaging and allied industries, such as market analysts, economists, academicians, scientists, technocrats, industry houses, consultants, paper manufacturers, technology suppliers, start-up companies, etc.

- **Abstracts (up to 500 words) of the technical papers may be submitted for the consideration of the Technical Committee on or before June 25, 2025.**

The authors may submit an abstract outlining the paper along with the complete address, telephone number, and email address of the authors. A brief biography and photograph of the speaker may also be submitted along with the abstract.

Authors may send the abstracts and complete technical papers to iarpma@inpaper.com and iarpma01@gmail.com.

Final paper submission

- **The full and final technical paper in word format, along with figures, diagrams, photographs, etc., is to be submitted to the Paperex Secretariat on or before August 20, 2025.** (Technical presentations should be prepared in PowerPoint (PPT), and it must be ensured that the presentation is completed within the given time. A 20-minute time slot will be provided for the technical presentation, followed by 5–10 minutes for discussion, questions, and answers).
- **PowerPoint Presentation to be submitted on or before November 10, 2025.**
